

# Reunited

Toni Braxton

Say you will, say you'll be  
Say you're gonna stand by me  
Cause you my girl and everything  
The one and only one I'll ever need  
It's not that easy to say  
I want you back in my life  
I wanna be with my wife again

[Chorus:]

Reunited, back to the business of love  
Reunited, getting back together because  
We're united  
What were we thinking of  
Ain't nothing better than us  
When it's me and you reunited

When you walked out of my life  
Everything fell apart  
But I wanna get it right  
Because I'm gonna always love you boy  
And I need you boy  
Tell me we'll fall in love again

[Chorus:]

Reunited, back to the business of love  
Reunited, getting back together because  
We're united  
What were we thinking of  
Ain't nothing better than us  
When it's me and you reunited

Because I'm gonna always love you boy  
And I need you boy  
Tell me we'll fall in love again  
Again

[Chorus 2x:]

Reunited, back to the business of love  
Reunited, getting back together because  
We're united  
What were we thinking of  
Ain't nothing better than us  
When it's me and you reunited
