

Long Time Coming

Toni Childs

It'll be a long time coming, boy
Till we meet again
It'll be a long time coming, boy
Till we meet again

It's part of life I don't like
Saying goodbye to old friends
And the end of life
And what we know

It'll be a long time coming, boy
Till we meet again

Well, it's time to say goodbye
And all the things we've said and cried
Through our lives
You will be on my lips

It'll be a long time coming, boy
Till we meet again
It'll be a long time coming, boy
Till we meet again

It'll be a long time coming, boy
Till we meet again

Into the earth we go and we dive
Into the spirit world where our hearts lie
We go down into the sea of eternal life
They say there is a light and we're freed

Some day we will find a better place, they say
Some day we will finally meet some day
We will sing in joy
We will sing amazing grace and say we loved to know

Long time coming, a long time
Will come some day
We will meet on that glorious day

Long time coming, a long time
It'll come some day
Long time coming, a long time
It'll come some day
