

# Where's The Light

Toni Childs

Well, I'm addicted boy  
And you're sound some peace  
But I don't think the money's  
Gonna take away the need

And yes I'm hurting girl  
You won't see it much  
'Cause it's the stuff we don't let out  
It's what you will not touch

What it is now heart?  
What we need to find?  
It seems we're all lookin' for  
Some peace of mind

Where's the light, where's the light  
In the darkness of my life  
Where's the light, where's the light  
In the darkness there is no light

What you're lookin' for?  
What you're lookin' for?

To be satisfied  
To go underground  
To swim inside the ocean  
Descend to the profound

To reach the bedrock  
A quest, a psychic death  
A wild thought, I just caught  
Would this be the end?

Can you help me now?  
Can you tell me please?  
How to find  
Some peace and relief?

Where's the light, where's the light  
In the darkness of my life  
Where's the light, where's the light  
In the darkness there is no light

What you're lookin' for?  
What you're lookin' for?  
What you're lookin' for?

Where's the light, where's the light  
In the darkness of my life  
Where's the light, where's the light  
In the darkness there is no light  
There is no light

Where's the light, where's the light  
In the darkness of my life  
Where's the light, where's the light  
In the darkness there is no light

Where's the light, where's the light  
In the darkness of my life  
Where's the light, where's the light  
In the darkness there is no light

Where's the light, where's the light  
In the darkness of my life  
Where's the light, where's the light  
In the darkness there is no light
