

## Can't We Try?

Gonzaga, Toni

Things are fine but in my nights i miss the one  
With whom i share my thoughts and dreams  
Alone im finding out its hard to be without you here with me  
It makes me crazy

[II]

Days have passed and so the nights get colder  
All the more i grow to miss u stronger  
No, ive never been in love and hurt like this before  
But let me ask you one thing

[Chorus]

Can't we try  
To make up for the bad times  
Baby can't we try  
To bring back all the loving  
That is still inside  
I'm sure it's right  
This could be forever  
Let's give it one more try

[repeat II and Chorus]

You see there can't be  
Somebody else between us  
Seldom do some people find  
Another chance like ours  
And if we take it then we'll make it through

[repeat Chorus]
