

If I Give You My Heart

Gonzaga, Toni

Since that day we met
I knew we were meant
You're the reason I'm here
And when you said hello
don't want to let it go
yet we were strangers in love
being with you feels like forever after
all we know time will keep us together
sometimes dreams do come true

If I give you my heart
Please don't tear it apart
cos this heart is for you
and if I say how I feel
and you know that its real
all I yearn it for you
but if I give you my heart
if I give you my heart
please be goood to me

All the stars up high
All the signs are right
Its a magical feeling
I know I can't be wrong
The feelings just too strong
You make me feel so alive
Being with you feels like forever after
All we know time will keep us together
Sometimes dreams do come true

If I give you my heart
Please don't tear it apart
cos this heart is for you
and if I say how I feel
and you know that its real
all I yearn it for you
but if I give you my heart
if I give you my heart
please be goood to me

Someone for my soul
Someone to belong
Someone to shine my dreams to
Someone like youuu

If I give you my heart
Please don't tear it apart
cos this heart is for you
and if I say how I feel
and you know that its real
all I yearn is for you
but if I give you my heart
if I give you my heart
Please be good to mee
