

You're My Right Kind Of Wrong

Gonzaga, Toni

I didn't see, I didn't feel
It was coming, it was real
We just talk, it's ok
Later on it's not the same

And I don't know now what's right or wrong
When I hear a tune it becomes our song
And it may sound weird but it's just true
I think there's something here for you

[Chorus]

When we drove late at night and I looked in your eyes
Even from the car park I felt the spark
Though we try to deny these feelings inside
Each time we would look eyes I couldn't help but smile
You're my right kind of wrong
And so this is your song

The phone rings, then you sing
It was awful but it's sweet
The clock strikes 1-4-3
You would tell me you love me

And those little things you thought won't count
And sometimes you think I still have doubts
When we want to be together now
You say soon we will make it somehow

[Chorus]

When we drove late at night and I looked in your eyes
Even from the car park I felt the spark
Though we try to deny these feelings inside
Each time we would look eyes I couldn't help but smile
You're my right kind of wrong
And so this is your song

Maybe I'll wake up in these fantasies over
But please don't take away all my dreams
All I know now is when the madness is over
I wouldn't smile the same anymore
