

## Feel It Now

Tonic

Come on, my baby, don't say a word  
Everybody knows it, everybody heard  
You're giving it up to me just like I knew you would  
Now you will never know what was never good

And I feel it coming down  
'Cause I feel it now lighting me up again  
Yeah, I feel it now, out of myself again  
And I feel it now I'm on my way  
And it's taking me back again

So come on give me sweetness, lay it on slow  
You don't have to wonder where it's gonna go  
You're giving it up to me just like I knew you would  
But it will never go the way that I thought it should

And I feel it coming down  
Yeah, I feel it now taking me back again  
Yeah, I feel it now dragging me in again  
And I feel it now, I feel it now  
And it's taking me

And I feel it coming down  
'Cause I feel it now taking me back again  
Yeah, I feel it now dragging me in again  
And I feel it now I'm on my way  
And it's taking me back again

Taking me back again
