

## Top Falls Down

Tonic

He lays down in silence  
Killing communication  
Any pride is pointless  
In these situations  
So she's gonna find a rider  
Because she can't love a radio flyer

Ooh you never give love  
So the top falls down  
Spread your wings and fly away  
My love

She said she's gotta have her freedom  
From the one who denies her  
From the builder of strong fences  
From the one who kills his senses  
When you're sleeping under water  
Breathing has no purpose  
She said she's looking for a rider  
Because she can't love a radio flyer

Ooh you never give love  
So the top falls down  
Spread your wings and fly away  
My love

Oh to look into the sun  
To see the shame in everyone  
So back I stand from want so near  
To be controlled by what I fear

Ooh you never give love  
So the top falls down  
Spread your wings and fly away  
My love
