

## We Are

## Tonight Alive

Close your eyes, fall away  
Touch the light, seize the day  
If all we are is dust in space  
Then tell me why I feel this way

I want more for the world that we live in  
We just take, never once have you given  
She will speak of her pain if you listen  
If you listen, if you listen

Waiting on a miracle  
Thinking it'll save us all  
Hoping if we turn our backs  
Forget the unforgivable  
But they're not gonna change the world  
We are  
They're not gonna save the world  
We are

So disconnect and reattached  
It's critical that we react  
If all we are is consciousness  
Then tell me why we've ignored this

I want more for the world that we live in  
We just take, never once have you given  
She will speak of her pain if you listen  
If you listen, if you listen

Waiting on a miracle  
Thinking it'll save us all  
Hoping if we turn our backs  
Forget the unforgivable  
But they're not gonna change the world  
We are  
They're not gonna save the world  
We are

If you're waiting for a sign  
You're living with fate to fall  
Hoping if you close your eyes  
You'll make it all invisible  
But they're not gonna change the world  
We are  
They're not gonna save the world  
We are

Breathe life into me  
I can feel your energies  
Oh we're young and we're free  
We could live eternally  
But the sun can only burn for so long  
And we can only learn from where we went wrong

Waiting on a miracle  
Thinking it'll save us all  
Hoping if we turn our backs

Forget the unforgivable  
But they're not gonna change the world  
We are  
No, they're not gonna save the world  
We are

If you're waiting for a sign  
You're living with fate to fall  
Hoping if you close your eyes  
You'll make it all invisible  
But they're not gonna change the world  
We are  
No, they're not gonna save the world  
We are
