

# Back To Back

Tony Banks

He's not the only one  
To think that things are going wrong  
And all around is only second best

Time was when all was fair  
And we built solid castles in the air  
He said that back to back in time's the way to go

Better in my day  
I hear everybody say  
But then they'll still be saying it tomorrow

It's so hard to take it  
When your time is over  
Yes it's hard to take it  
When you try to remember

Better in my day  
In my way  
Can't you see

Better in my way  
Here today  
Don't you see

I remember well he said  
When great men led the way instead  
Of manicure and media-hugging style

But I don't know what to do  
From now on we'll always lose  
He said that back to back in time's the way to go

Better in my day  
I hear everybody say  
But then they'll still be saying it tomorrow

It's so hard to take it  
When your time is over  
Yes it's hard to take it  
When you try to remember

Better in my day  
In my way  
Can't you see

Better in my way  
Here today  
Don't you see

He's not the only one  
To think that things are going wrong  
And all around is only second best

But I don't know what to do  
From now on we'll always lose  
He said that back to back in time's the way to go

The only way to go  
Try to remember

Oh, better in my day  
Better in my way
