

# All for You

Tony Bennett

When you turned around and looked  
Into my eyes  
It was just the moment when  
I realized  
That my life had just begun  
And my past faded away  
All I do is hope and pray  
That our love will always stay

Now my world is so alive  
My dreams came true  
You're the spirit that I need  
It's all from you  
Every moment that I'll live  
My whole life through  
Now I'll look into your eyes  
And live for you

Now my world is so alive  
My dreams came true  
You're the spirit that I need  
It's all from you  
Every moment that I'll live  
My whole life through  
Now I'll look into your eyes  
And live for you

All for you  
When I look into your eyes
