

Listen, Little Girl

Tony Bennett

Listen, little girl
Don't play around with the wild ones
Better drink tea with the mild ones
You're still an ingénue

Listen, little girl
Stay with your own pretty set, dear
Grand amour's not for you yet, dear
You'll find a love that's true

Once you spread your wings
It's alright if you fly
You'll learn lots of things
On your way to the sky

Listen, little girl
Stay where the bright lights won't blind you
Some day that someone will find you
Listen to me, 'cause I've got my degree

Better listen, little girl to me
