

Over the Sun

Tony Bennett

I dreamed last night of a place
Somehow its over the sun
That land is waiting for us

There is a chance to begin
A life of hope and relief
For everyone is a god

I have found a way
to make the flowers laugh
so they could blink and smile
when we would pass
under the rainbow of her golden sky

I have found a way to voyage
to the land with one embrace
we'll reach a paradise and
we'll be met by only happiness

I dreamed last night of a place
Somewhere its over the sun
That land is waiting for us

There is a chance to begin
A life of hope and relief
Where everyone is a god

I dreamed last night of a place
Somehow its over the sun
Over the sun
Over the sun
