

This Funny World

Tony Bennett

This funny world makes fun
Of the things that you strive for
This funny world can laugh
At the dreams you're alive for

If you are beaten conceal it
There's no pity for you
For the world cannot feel it
Just keep to yourself, weep to yourself

This funny world can turn right around
And forget you
It's always sure to roll right along
When you're through

If you are broke you shouldn't mind
It's all a joke for you will find
This funny world is making fun of you
