

What Makes It Happen

Tony Bennett

What makes it happen?
What brings the wonder?
What starts the thunder you hear in your heart?
What makes the magic that makes life worthwhile,
Keeps you on Earth while you're somewhere apart?
One day you're nothing, next day you're something
Because of someone you happen to see
What makes it happen?
What makes love happen?
When will it happen to me?
Oh, when will it happen to me?
