

The Deal

Tony Carey

We got everybody lookin'
For the get-rich-quick
Everybody's lickin' on the ice-cream-stick
Here's ten for me - five for you
Seven-oh thirty that's the best you're gonna do
Rich man poor man nothin' in between
Bet your last dollar you'll be sleepin' in the streets
Fast-track last-laugh
Beggaman, thief
Nothin' worth nothin' ever comes that cheap

Baby get your hands out,
Grab on to the wheel
Get it in get it out man this one's for real
And the streets are made of gold
For real
We gotta move we're gettin' old
For real - everybody wants the deal

My daddy was a lawman
Sheriff in a bus-stop town
He carried off just about
Everything that wasn't nailed down
You get what you get and you keep what you get for you
Look on out for number one - that was the message came through

Baby get your hands out,
Grab on to the wheel
Get it in get it out man this one's for real
And the streets are made of gold
For real
We gotta move we're gettin' old
For real - everybody wants the deal

The Deal
Everybody wants The Deal
It's for real
And the streets are made of gold
For real
We gotta move we're gettin' old
For real - everybody wants the deal
Make a deal baby

Everybody wants the deal
Everybody wants the deal
Everybody's lookin for the deal
Everybody wants the deal
Everybody wants the deal
