

# West Coast Summer Nights

Tony Carey

Oh, that summer was a killer, all right  
Sleeping in the back of the car at night  
We had no money, we came through  
You had me, baby, I had you

Out on the open road all over America  
Had it made, we were getting it right  
Making love on a West Coast summer night

(Summer night, summer night)  
Summer night (summer night)  
Summer night (summer night)

We had it made and we knew it all  
We could never stumble  
Never take a fall  
We had the world at our fingertips  
We were golden, we couldn't miss

Out on the open road all over America  
Had it made, we were getting it right  
Making love on a West Coast summer night

(Summer night, summer night)  
Summer night (summer night)  
Summer night (summer night)

Out on the open road all over America  
Had it made, we were getting it right  
Making love on a West Coast summer night

(Summer night, summer night)  
(Summer night, summer night)

Whatever became of the summer of love  
Did we get hard or did we grow up  
Had it made, we were getting it right  
Making love on a West Coast summer night

(Summer night, summer night)  
(Summer night) we were making love  
On a west coast summer night

(Summer night)  
Summer night (summer night)  
West Coast summer night  
(Summer night)

We were making love  
On a West Coast summer night
