

# Dancing In The Sunshine

Tony Christie

Let's fly out together  
And find sunny weather  
Where I can live with you  
Just with you

We will leave behind our city lives  
And find a better place to stay  
We have talked about it many times  
But now we soon be on our way

Gonna live a life of make believe  
Surrounded by white silver dues  
Soon we'll be inside our land of dreams  
Where we will fall for still blue lagoons

Dancing in the sunshine  
We're gonna have a fun time  
Playing down on the sand  
We'll be together enjoying  
The weather of wonderland

Dancing in the sunshine  
We're gonna have a fun time  
Singing songs everyday  
Waving the music of love  
On the moonlight bay

No more hassle working 9 to 5  
For the first time we will feel alive  
You and I are gonna live in paradise forever more

Breathing in the perfect prom' of flowers  
Dripping on the cooling breeze  
Watch the shadows of the fishing boats  
Reflecting on the deepening seas

These are things that we have dreamed about  
And now it seems they're coming true  
Most of all I'm looking for a true romantic nights  
I'll share with you

Dancing in the sunshine  
We're gonna have a fun time  
Playing down on the sand  
We'll be together enjoying  
The weather of wonderland

Dancing in the sunshine  
We're gonna have a fun time  
Singing songs everyday  
Waving the music of love  
On the moonlight bay

No more hassle working 9 to 5  
For the first time we will feel alive  
You and I are gonna live in paradise forever more

No more hassle working 9 to 5  
For the first time we will feel alive  
You and I are gonna live in paradise forever more

No more hassle working 9 to 5  
For the first time we will feel alive  
You and I are gonna live in paradise forever more
