

# So Deep Is The Night

Tony Christie

So deep is the night  
No moon tonight  
No friendly star  
To guide me with it's light

He stole my heart  
Silence lets my love shall be returning  
From a world, far apart

So deep is the night  
O' lonely night  
On broken wings  
My love has taken flight  
And let the dream

In my dream our lips are blending  
Will my dream will be never ending  
Will your memory haunt me till I die

Alone am I, deep into the night  
Waiting for the light  
Alone am I, I wonder why  
So deep is the night

In my dream our lips are blending  
Will my dream will be never ending  
Will your memory haunt me till I die

Alone am I, deep into the night  
Waiting for the light  
Alone am I, I wonder why  
So deep is the night
