

Summer Wine

Tony Christie

And as we drank the last of summer wine
you looked at me and raised your glass to mine
and then we vow that we'll be back again
when summer comes around and we will dream of then

And so we'll drink another glass of summer wine
as we recall sweet memories of your's and mine
and think of all those days that we're so fine
and drink another glass of summer wine
and so we'll drink another glass of summer wine
and think of all our mem'ries in the summer time
as we recall the sun that always shines
we'll drink another glass of summer wine

And as the music played our happy song
you looked at me and said: it won't be long
till we come back to golden sand and sea
and to this magic land just made for you and me
Chorus:

And so we'll drink another glass ...

Try to remember all these times we've spent together
the joy, the laughter, the fun - the two of us - as one
we'll be back - wait and see
we'll drink a toast - to you and me
Chorus:

So let's drink another glass ...
