

# Time Is Mine

Tony lommi

Lift me up  
Lift me up  
Put me above jail  
But put me below skies, below crimson skies

Undress me from these rags  
Shake me and watch me glow  
Foundations cracking under the wisdom of our steps

Lift me up and shake me low  
Shake and glow and life will be saved

Time is mine, ignore the blind  
It won't be long till the writing is gone  
And time will fly  
A burden on life lifted high and precisely through wisdom and war  
Wisdom and war

Braided veins  
Can turn to gold  
Smoke and stone  
Will claim the skies and open all whose eyes are blind  
The tempter is behind thee, and cowers through the throes  
The sands that drank from blood, to rivers that flow beyond

Time is mine, ignore the blind  
It won't be long till the writing is gone  
And time will fly  
The tied hands of man and you will understand through the pains of re birth  
Time is mine, the choking of seas  
I won't be wrong when the scriptures are gone  
And time will fly  
A burden on life lifted high and precisely through wisdom and war

Deplete the eyes  
Walk through the skies  
In the memories of old  
We'll blow it all away

Time is mine, ignore the blind  
It won't be long till the writing is gone  
And time will fly  
The tied hands of man and you will understand through the pains of re birth  
Time is mine, the choking of seas  
I won't be wrong when the scriptures are gone  
And time will fly  
A burden on life lifted high and precisely through wisdom and war
