

Cool Town Woman

Tony Joe White

Cool Town Woman

I was dreaming about you baby

When th

I was dreaming about you baby

And the dog just howled all night

I just laid there thinking about you

'Til the morning light

I been missing you baby

But my alimony ain't been paid

I been missing you baby

But my alimony ain't been paid

And that cool town woman is so bad to

Carry a blade

I'm no good for you baby

You know I'll never be free

No good for you baby

You know my heart ain't free

That cool town woman has still got

A hold on me

I ought to move to the country

And find me a piece of ground

Move out to the country

Find a little piece of ground

But that cool town woman would

Sure enough hunt me down

I was dreaming about you baby

When the dog woke me up last night

I was dreaming about you baby

And the dog just howled all night

I just laid there thinking about you

'Til the morning light
