

India

Tony Martin

Everybody loves a pretty woman's smile
Anyone would walk a million miles
Your mama must have told
some cute little lies
Just to get you those angel eyes
Now I believe in love I see it in your eyes
And everybody knows a look can paralyse
Oh India, India

CHORUS

Oh India I see it in your eyes India

Tonight I'm gonna need your love
Tonight you're the one I'm thinkin' of
Tomorrow's too late, baby I just can't wait
Tonight so much time slipped between us
Tonight how could anybody blame us
Life don't slow down
Funny how things come around
