

# Tonight We Love

**Tony Martin**

Tonight we love freddy martin- words by bobby worth, music adapted by ray austin and freddy martin- from tchaikovsky's piano concerto in b-flat minor  
tonight we love while the moonbeams down in dream light  
tonight we touch the stars love is ours  
night winds that sigh embrace the sky  
tonight we love in the glow that glows so softly  
i know this wasn't meant to borrow but tomorrow will it be gone  
or will it always live on  
tonight we love
