

Tonight We Love

Tony Martin

Tonight we love
freddy martin- words by bobby worth, music adapted by ray austin and freddy martin- from tchaikovsky's piano concerto in b-flat minor
tonight we love while the moonbeams down in dream light
tonight we touch the stars
love is ours
night winds that sigh
embrace the sky
tonight we love in the glow
that glows so softly
i know
this wasn't meant to borrow but tomorrow
will it be gone
or will it always live on
tonight we love
