

# Why Love

Tony Martin

Why love, why love, why  
Why love, why love, why

If found the road to hell,  
And it passes by my window  
So many numbed by your magic spell  
Like me they tried to find  
A way to your door

They cry all night and curse the kiss  
That changes love to emptiness forever

## CHORUS

Why love, why love, why

I thought we're living as branches  
On the same tree  
Why love, why love, why  
Why take the only thing  
That belongs to me
