## Why Love

## **Tony Martin**

Why love, why love, why Why love, why love, why

If found the road to hell, And it passes by my window So many numbed by your magic spell Like me they tried to find A way to your door

They cry all night and curse the kiss That changes love to emptiness forever

CHORUS

Why love, why love, why

I thought we're living as branches On the same tree Why love, why love, why Why take the only thing That belongs to me
