

Via Munich

Tony Sly

Every time I see it clearly
It's a time that you are near me
I just don't see the world without you

Walkin' down the streets of Munich
Where I tried to drink my self sick
Try to forget and soon it will be through

But I sing your song
Where ever I go
You're along
Not actually, but in my mind
We cheers another day

2 weeks left, the world is wasted
There's nothing poetic about it
The fact is that I'm looking for a friend

One that doesn't talk to me
And kindly serves me until three
Not someone that will be there in the end

But I sing your song
Where ever I go
You're along
Not actually, but in my mind
We cheers another day

Nothing new to us
But every time it does get worse
But nevermind, that's life
And all we have is time
