

## Restless

### Too Close To Touch

Oh, I'm stressing, rattling my brain for a feeling that's missing

Oh, I question everything it's taking the weight of my chest

But now I'm done, giving into the things they want

I've dealt with doubt enough, shutting out all the noise and all their distractions, now

All I know, I'm outta my head,

Outta my mind do whatever makes us

Lose control just for a night

Trapped under the city lights

(2x)

Look inside for what you think, either way, we're breaking free

Who needs sleep when we have the world at our feet

I'm thinking lately it's been hard to see

Under pressure, I'm on the edge again, let it take control

Shutting out all the noise and all their distractions

All I know, I'm outta my head,

Outta my mind do whatever makes us

Lose control just for a night

Trapped under the city lights

(2x)

Dangerously out of reach

Feel the earth beneath our feet

Chasing things we cannot see

Nothing's ever what it seems

Searching for another way

Truth is hard to find these days

Chasing things we cannot see

Nothing's ever what it seems

(2x)

All I know, I'm outta my head,

Outta my mind do whatever makes us

Lose control just for a night

Trapped under the city lights

(2x)
