

Call Me Daddy

Too \$hort

Yeah baby you know what's up
Trying to get this money girl
I'm a take you out to Las Vegas, put you to work
Show you how to get this real money, you know what I'm saying?

I can't wait til next Friday (next Friday)
That's when a brother gets paid (gets paid)
I've got plenty to drink, plenty to smoke
That's what I'm out here hustling for

We all need to be strong, for the ones we love
Can't hesitate to help the next man up
Pass the game like it's a hot potato
Gotta do it now and not later

You want to say something, preach it
If you know something, teach it
Cause it makes no sense to keep it to yourself
That's how you felt
well you might feel better if you spread your wealth

Let it trickle down... cause your crumbs
might be just enough for me to get some
I'm trying to come up, you know I'm coming
But it's hard for a black man without a good woman

If you find one it might be your last chance
You ain't never going hold down a black man
You need to choose me, get this money you can have me
Ride in my Caddy, and call me daddy

You've got your momma, you know how that is
A good mother's going do anything for her kids
But you never knew your father, he never bothered
Your last boyfriend used to grab you by the collar

For nothing, wasn't even trying to get money
Fine woman like you, I don't find the shit funny
You need management, not an amateur pimp
Who don't know what to do, when the money ain't cool

I'm a hustler, I always eat good
Fat house in the hood, new shoe on my foot
Things ain't been the same since he put you out
Something you ain't never felt good about

Let's get this money, that's what I want you for
Don't make me wait too long, cause life is too short
She said gladly, and then she had me
Jumped in my Caddy, and called me daddy

You trying to convince yourself it's the right thing
Once upon a time you had nice dreams
Now you don't sleep good, what you thinking of?
Nobody can't tell you how to get that love

It's right here, I know you understand me

I'll be your daddy, I'll be your whole family
No stress, never have to worry bout a thing
The best restaurants, furs and diamond rings

All paid for by the suckers and lames
All you need is me in this motherfucking game
To the top, that's where we going
Where the good green don't stop growing

Don't ever turn on me
Give me everything you earn for me
Be together forever, never lonely
Smoke my last weed, a big fatty
Ride in my Caddy, and call me daddy

[Chorus: x 2]
