

Crush Story

Too Much Joy

You can power a city with this
I am useless I am a mess
I am the smallest giant ever
I am the smallest giant ever

Don't know how long it's gonna last
Everything is moving fast
I am the smallest giant ever
I am the smallest giant ever

Everything you ever said is brilliant
Anything you want to do is fine with me
This is much better than love, babe
This is a crush story, crush story
Better than love
Better than love
Better than love

Misunderstand me
Hey, misunderstand me
I just wanna lay my head in your lap
I just wanna lay my head in your lap

Everything you ever said is brilliant
Anything you want to do is fine with me
This is much better than love, babe
This is a crush story, crush story
Better than love
Better than love
Better than love

Crush story, crush story
Better than love
Better than love
Better than love

Everything you ever said is brilliant
Anything you want to do is fine with me
This is much better than love, babe
This is a crush story, crush story
Better than love
Better than love
Better than love

Everything you ever said is brilliant
Anything you want to do is fine with me
This is much better than love, babe
This is...

Crush story, crush story
Crush story, crush story
Crush story, crush story

This is a crush story
