

Jambi

Tool

Here from the king's mountain view
Here from the wild dream come true
Feast like a sultan I do
On treasures and flesh, never few.

But I, I would wish it all away
If I thought I'd Lose you just one day

The devil with his had me down
In love with the dark side I'd found.
Dabble in all the way down
Up to my neck so to drown.

But you changed that all for me
Lifted me up, turned me round
So I,
I,
I,
I,

I would
I would
I would
Wish this all away

Prayed like a father dusk to dawn
Beg like a hooker all night long
Tempted the devil with my song
And got what I wanted all along

But I
And I would
If I could
And I would

Wish it away
Wish it away
Wish it all away
Wanna wish it all away
No pressure could hold sway
Or just a fine line
Kneeling away, my Santa

So if I could I'd wish it all away
If I thought tomorrow, They'd take you away
You're my peace of mind, my home
I said I'm just trying to hold on
One more day

Dim my eyes
Dim my eyes

Dim my eyes if they should compromise
Or fall from what sin need you find within
I might as well be gone

Shine on forever

Shine on benevolent sun

Shine down upon the broken
Shine until the two become one

Shine on forever
Shine on benevolent sun

Shine on upon the severed
Shine until the two become one

Divided I'm withering away
Divided I wither away

Shine on upon the many, light our way
Benevolent sun

Breathe in union
Breathe in union
Breathe in union
Breathe in union
Breathe in union
So as one survive
Honor the day and season

Silence leech,
and save your poison
Silence leech,
and stay out of my way
