

Lost Keys (Blame Hofmann)

Tool

Excuse me
Doctor, If you have a moment?
A moment what's the crisis?
More of a situation: A gentleman comes in at three
What's the problem?
That is the problem
We're not sure
You got the chart?
Right here
Hmm, not much here is there?
No doctor
Nothing on his physical turned up (not sure about this one)
Mmm, vital's are stable
Name?
No sir
Someone drop him off?
Maybe we can speak to them.
Let's get some background on this guy.
No Id, Nothing
And he won't speak to anyone
Well then let's say hello

Good morning
I'm Doctor Marcy
How are you today
How are you today (echo)
Look son
Your in a safe place
We want to help you, whatever way we can
But we need to talk to you
We can't help you otherwise
Now what's happened
Tell me everything
