Something has to change  
Undeniable dilemma  
Boredom's not a burden  
Anyone should bear

Constant overstimulation numbs me  
But I would not want you any other way

Just  
Not enough  
I need more  
nothing seems to satisfy  
I said  
I don't want it  
I just need it  
To breathe  
To feel  
To know I'm alive

Finger deep within the borderline  
Show me that you love me and that we belong together  
Relax, turn around and take my hand

I can help you change  
Tired moments into pleasure  
Say the word and we'll be well upon our way

Blend and balance  
Pain and comfort  
Deep within you  
'Til you will not want me any other way

But it's not enough  
I need more  
nothing seems to satisfy  
I said  
I don't want it  
I just need it  
To breathe  
To feel  
To know I'm alive

Knuckle deep inside the borderline  
This may hurt a little but it's something you'll get used to  
Relax, turn away

Something kinda sad about  
The way that things have come to be  
Desensitized to everything  
What became of subtlety?

And how can this mean anything to me  
If I really don't feel a thing at all?

I'll keep digging  
'Til I feel something

Elbow deep inside the borderline  
Show me that you love me and that we belong together  
Shoulder deep within the borderline  
Relax, turn around and take my hand
