You Lied

Setting sun can't shine, now you're gone Inside sleeping, my heart beating You know that you tried to hide it Couldn't you have said what you meant? Oh...

Time heals, time congeals around us Endless hours of wasted moments Understanding, not demanding Your eyes tell what you feel inside

Setting sun can't shine, now you're gone Inside sleeping, my heart beating You know that you tried to hide it Shouldn't you have said what you meant?

YOU LIED!
