

We've got time to wait
Then we wait until it's too late
We always move in seconds in a world of hours and days
We've got bones and blood
Is this all what we've got
I thought there was a brain
But maybe I just thought in vain

And this is not the time to wonder
This is not the time to cry
This is not the time to sleep while we fight
And this is not the time to die

'Cause this is just a time to fear
Oh, don't worry about the meaning
Don't worry 'bout the world
It's the question how to see it clear

That's the time...

Reality isn't dreams
Reality is not what it seems
It's not the way we want it
It's just the way it's gonna be
We've got love and hate
But we can't estimate
What's the right solution
To kill the illusion of this world

And this is not the time to wonder
This is not the time to cry
This is not the time to sleep while we fight
And this is not the time to die

'Cause this is just a time to fear
Oh, don't worry about the meaning
Don't worry 'bout the world
It's the question how to see it clear

That's the time...
