

## Faith Healer

Tora Tora

Walking with your eyes closed down a dead end street  
You think you're never coming back  
That's when your heart begins to bleed, yeah  
Wandering in circles and you don't know where to go

Let me take the rain  
Let me take the pain  
And wash it away

I'd do anything, give anything for you  
When your love's blinded my eyes can see, yeah  
I'd do anything, give everything it's true  
Feel what I'm feeling, make you a believer  
I'll be your faith healer

Came without a warning, tore your world apart  
Lost dreams and bad memories  
Have kept me in the dark, yeah, yeah  
You can keep running, running from the shadows of the past

Let me clear the rain  
Let me take the pain  
And wash it away

I'd do anything, give anything for you  
When your love's blinded my eyes can see, yeah  
I'd do anything, give everything it's true  
Feel what I'm feeling, make you a believer  
I'll be your faith healer
