

Not David Bowie

Tori Amos

Vultures in my garden
Figures that I know them
And it is what it is

You were good once
Now you're filled with bitterness
And it is what it is

I cannot forget that he can't forget her
or that some friends just change like the seasons
Take me back to the fact that you still blame me
but I am not the reason you are not David Bowie

Now you want to steal the thoughts
that I haven't even thought
and it is what it is

How 'bout your soul?
Made a pact with the Devil
and needs a date with the surgeon
and it is what it is

I cannot forget that he can't forget her
or that some friends just change like the seasons
Take me back to the fact that you still blame me
but I am not the reason you are not David Bowie
not David Bowie

You forgot to value
what all of us have done for you
and it is what it is

You swore you were concious
not a champagne spiritualist
and it is what it is

I cannot forget that he can't forget
or that some friends just change like the seasons
Take me back to the fact that you're still blaming
but I am not the reason you are not David Bowie
not David Bowie
not David Bowie
