

Our New Year

Tori Amos

Glasses raised we all say cheers
Could this be the one
Our new year

Even after all this time
I don't know why
Why you went away

Lately Im sure it's
You there waving
In the distance
Closer
The closer I get
Disappointment

It is, yes it is
They just have the same color of your hair

You're not there
You're not there

Every corner that I turn
I've convinced myself
One day you'll be there

Choruses of Auld Lang Syne
Could this be the year
Yours and mine

Lately Im sure it's
You there waving
In the distance
Closer
The closer I get
Disappointment

It is, yes it is
They just have the same color of your hair

You're not there
You're not there
You're not there
You're not there
You're not there
You're not there
You're not there
You're not there

Glasses raised we all say cheers
Could this be the one
This could be the one
Could this be the one
Our new year
