

# Take Me With You

Tori Amos

In and out on this same path  
That I followed for years  
Can't I look around and ask  
How could we still end up here  
I can't just hold tight  
Wait for them to cut us to ribbons  
If the sharpest thing where you come  
Is a blade of grass

Oh ho, take me with you  
I don't need shoes to follow  
Bare feet running with you  
Somewhere the rainbow ends, my dear

These injuries  
Don't you think we need a new referee?  
I can't let the ball drop  
Boy, I need some interference  
To shut them up

Oh ho, take me with you  
I don't need shoes to follow  
Bare feet running with you  
Somewhere the rainbow ends, my dear

Oh ho, take me with you  
Chase rabbits into their burrow  
Bare feet running with you  
Today even the rain can cut me up

Tears turn to steal  
And the wound never heals  
In the darkness of November  
Well, the witch is in the tower  
And the snake is in the bower  
And the hunt goes on forever  
Now the stake is there to burn  
My father's robe is torn  
Between cross and Mother  
With the blood on your hands  
"Come on, what you doing?"  
I am fed up with this questioning

Oh ho, take me with you  
I don't need shoes to follow  
Bare feet running with you  
Somewhere the rainbow ends, my dear

Oh ho, take me with you  
Chase rabbits into their burrow  
Bare feet running with you  
Today, today

Oh ho, take me with you  
I don't need shoes to follow  
Bare feet running with you  
Today even the rain

Even the rain  
Even the rain  
Can cut me up

Take me with you  
Take me with you
