Actress

Tori Kelly

She don't smile too much But when she does it's just enough to make you smile back And she don't cry too much But when she does it's just enough to make you feel bad

She got dreams to be seen on screens by everyone But underneath truly just wants to be known by anyone She's in the fast lane making big waves so there's no time for her heart Can't slow down now

She said it's easier to be an actress Call me insane or call me an addict But like champagne when it touches my lips I can choose who I wanna be Yeah it's easier to be an actress Fresh tear stains I found on the mattress Hide my pain I can never admit That I'm sick of all this But nuh uh it's easier to be an actress

She don't fall in love Cause that would mean gotta let em see behind the mask And she don't know enough About how beautiful she is Without all the magic tricks that she's hiding

She got dreams to be seen on screens by everyone But underneath truly just wants to be close to anyone But you gotta fake it till you make it So there's no time to be real Can't slow down now

She said it's easier to be an actress Call me insane or call me an addict But like champagne when it touches my lips I can choose who I wanna be Yeah it's easier to be an actress Fresh tear stains I found on the mattress Hide my pain I can never admit That I'm sick of all this But nuh uh it's easier to be an actress

But nuh uh it's easier to be an actress It's easier...
