

# Bring Me Home

Tori Kelly

I've been so lost  
Wandering in the dark  
I feel secluded  
Lonely, disconnected

This is me standing here  
Saying I need you  
Lavish me with your love  
I thrive off of you  
I try to live alone  
But you always bring me home

Calling your name  
Reaching out for your warm embrace  
I feel so safe  
Your love is like visual sound  
Like a dream so vivid

This is me standing here  
Saying I need you  
Lavish me with your love  
I thrive off of you  
I try to live alone  
But you always bring me home

You always bring me back where I belong  
You always pull me back into your arms  
Everytime I'm with you, it's like I'm brand new  
I feel so free, you're all I need

This is me standing here  
Saying I need you  
Lavish me with your love  
I thrive off of you  
I try to live alone  
But you always bring me home
