

# Daydream

Tori Kelly

Hold on to anything just so you don't crash.  
Fought off the empty lies that once ruled your past.  
Right when you think you've won, jump three steps back.  
So now you find yourself stuck in your own trap.

They try to dirty up your name,  
But it's all a game.  
Baby you don't need to know exactly who you are.  
Because figuring it all out could be the best part.

Don't quit your daydream.  
Don't forget to breath.  
Who you wanna be is only up to you.  
Sometimes you may crawl,  
Let them think that you're small.  
Cuz it's all worth the fall  
When you land where you want to.

Tried almost everything, still spinnin' around.  
One thing you haven't tried is erase every doubt.  
Keep both feet on the ground while your head's in the clouds.  
And when you feel like giving up, listen to these sounds.

And make sure.

You don't quit your daydream.  
Don't forget to breath.  
Who you wanna be is only up to you.  
Sometimes you may crawl,  
Let them think that you're small.  
Cuz it's all worth the fall  
When you land where you want to.

You don't have to know exactly who you are just let your heart beat.  
It's so worth the trials that you're going through.  
So just enjoy the fall, and you'll land right where you want to.

Don't quit your daydream. (just take it slow)  
Don't forget to breath.  
Who you wanna be is only up to you. (it's only up to you)  
Sometimes you may crawl, (sometimes you may crawl)  
Let them think that you're small. (you gotta get back up again)  
Cuz it's all worth the fall  
When you land where you want to.

Baby don't you ever quit.

Baby you don't have to know exactly who you are,  
Because figuring it all out could be the best part.
