

# Talk

Tori Kelly

People talk, people talk  
But they don't wanna say what they're really trying to say  
Hopes and fears, smoke and mirrors  
Save all the thinking, words by themselves they just fade

People run, people walk  
But they don't ever see past the world that they're in  
So if it's talk that you want from me then maybe you should let  
me in

Oh, you keep saying you won't let me go  
Oh, you keep saying what I've heard before  
Talk

Playing with empty hearts, leading words felt like they're just  
going no where now  
So if it's talk that you want from me then maybe you should let  
me in

Oh, you keep saying you won't let me go  
Oh, you keep saying what I've heard before  
Oh, you keep saying you won't let me go

All I hear is talk

I know all about you, know all about you  
Know all about you

You keep saying you won't let me go  
Talk

Oh, you keep saying you won't let me go  
Talk  
Oh, you keep saying you won't let me go  
Talk  
You keep saying things I've heard before babe  
Heard before babe
