

# Upside Down

Tori Kelly

You have flipped my view  
Yeah, I'm not used to these changes  
All these brand new feelings I can't explain  
But somehow I like it

And if I, find out  
That you feel, the same way  
As I do, I will love you  
As soon as I can stand up straight, ohh

You got me walking sideways  
Spinning all around  
Dizzy because you flip my world  
Upside down  
Upside down

I've been so confused  
I wouldn't normally fall for someone quite like you  
I'm tripping over my own thoughts  
But baby I really like you a lot

(I wonder if you feel the same)  
If you feel the same way  
(I wouldn't know just what to do)  
Cause I can't even stand up straight

Can somebody tell me why I feel this way  
24/7 you're always on my brain  
I can't really put my finger on it but  
(You got me so twisted)

I've had crushes before, but it's not the same  
Something different about you, I can't explain  
Baby you're making me insane  
(You got me so twisted)
