Where I Belong

I'm just a girl and her guitar Trying to give you my whole heart If there's anybody out there listening to me All I have is a story and a dream Here I am, and that's all I can be

You know I forget to breathe sometimes And I'm so afraid to fall behind Why do I let the pressure take over my mind? When I know the truth is never wrong I'm alright, this is right where I belong

Tori Kelly
