

## You Hid

Toro y Moi

Give me somewhere to be  
Take me to somewhere now  
You might as well waste your time with me  
If you're gonna be here

Get away from the woods that make you afraid  
Down to the last new strands of thought  
Making you a target for a fight

Give me somewhere to be  
Take me to somewhere now  
You might as well waste your time with me  
If you're gonna be here

I don't think I'm worth it  
As a best friend  
I don't want to hold you down  
But if there's someone better for you  
I don't want to be around when you've gotta go

Go away  
Go away
