

No Time To Bleed

Torture Killer

I got no time to bleed
There's more for me to kill

One motherfucker down, millions yet to kill
Taking out one by one, I've got another in sight
An endless massacre, firing at open will
Try to count the bullets, I've got another clip to fill

I got no time to bleed

Feeding up the slugs, targets dropping like flies
A rain of leads fills the screaming sky
I pull the trigger - another fucker dies
The taste of powder, justified murder

There's more for me to kill

You got a death wish
I'm gonna fucking kill you
You motherfucker
Die, die, die!

I got no time to bleed

There's more for me to kill
