

Abduction Was The Case

Torture Squad

Cold night, dark road
Strange object starts to float
Unknown force carrying me
Lights in the sky, shadows I see

Dark figures, odd faces
Eyes so bright, alien race
Paralysed by the fear
My scream no one hears

In the ship... nightmare
Experiences, voices in my head
Their purposes no one knows
Mysterious unknown

Abduction was the case
At the mercy of greys
In my mind... I'm afraid!
Strange needles touch me
Excruciating reality
