

Horror And Torture

Torture Squad

Hear my call e come to me
Gathering lives is just my ecstasy
Hidden in the shadows I'm watching you
Like a fly to a spider I'm gonna get you

Horror and torture
See me coming to your side
Horror and torture
Coming through the darkest night
Horror and torture

Let me take you down to hell
I'll make you burn 'till you cannot yell
Inside my world there's no place to be
Death is just a good thing to me

Horror and torture
See me coming to your side
Horror and torture
Coming through the darkest night
Horror and torture
You never gonna find a place: to hide (bis)
